DETAILED ACTION

Claims Objections

1. Claims 37-40 are objected to as being improper dependent claims. A method claims (usually comprises processing steps) cannot depend on device claims or structural claims.

Correction is required.

Election/ Restriction

Claims 36-41 are pending in this application.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 36,41, drawn to a semiconductor processing component is classified in class 257, subclass 077.

Group II. Claims 37-40 , drawn to a method for processing semiconductor wafer , is classified in class 438, subclass 680

3. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that

Art Unit: 2818

product (MPEP § 806.05(h)). In the instant case the process of claim 37 can be practiced with a Wafer Jig that is a materially different product from the Applicant invention, a wafer boat.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-existent. Therefore, separate examinations would be required and restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
